

15th Policy SIG Report

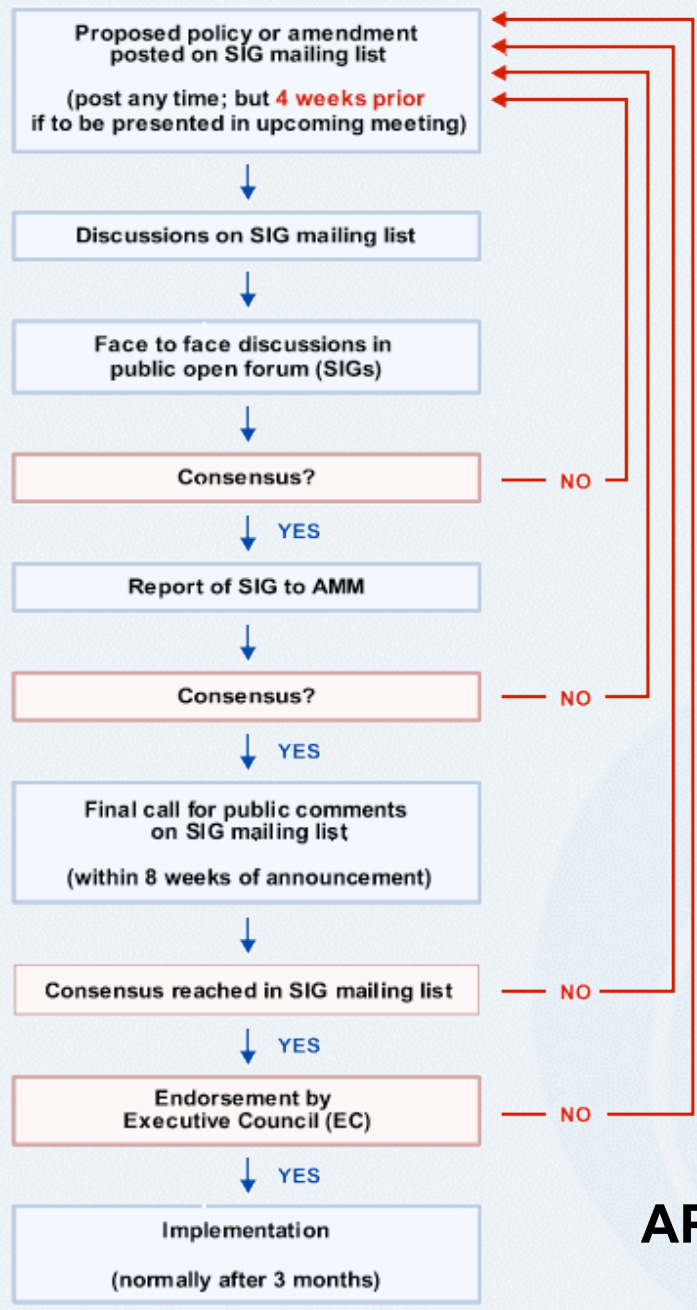

2007.3.2

Kenny Huang

Toshiyuki Hosaka

Eugene Li

Chair/co-chair of APNIC Policy SIG

APNIC Policy Development Process

History

- 1st SIG: Korea, Mar. 2000
- 2nd SIG: Brisbane, Oct. 2000
- 3rd SIG: KL, Mar. 2001
- 4th SIG: Taipei, Aug. 2001
- 5th SIG: Bangkok, Mar. 2002
- 6th SIG: Kita-Kyushu, Sep. 2002
- 7th SIG: Taipei, Feb. 2003
- 8th SIG: Korea, Aug. 2003
- 9th SIG: Kuala Lumpur, Feb. 2004
- 10th SIG: Fuji, Sep. 2004
- 11th SIG: Kyoto, Feb. 2005
- 12th SIG: Hanoi, Sep. 2005
- 13th SIG: Perth, Feb. 2006
- 14th SIG: Kaohsiung, Sep. 2006
- 15th SIG: Bali, Feb. 2007

Policy SIG Agenda

- Draft SIG guidelines: Kenny Huang
- Chair / co-chair Election
- Action items update: Kenny Huang
- Global policy update: Nurani Nimpuno, APNIC
- prop-042: Proposal to change IPv6 initial allocation criteria: Jordi Palet Martinez, Consulintel
- prop-043: Proposal to remove reference to IPv6 policy document as an "interim" policy document : Jordi Palet Martinez, Consulintel
- prop-044: Proposal to remove requirement to document need for multiple /48s assigned to a single end site Jordi Palet Martinez, Consulintel
- prop-045: Proposal to modify "end site" definition and allow end sites to receive IPv6 allocations: Jordi Palet Martinez, Consulintel
- Large IPv4 address space usage trial for future IPv6 deployment - phase 2 Fukushima Nao, IPv6 Promotion Council of Japan
- Evaluation of GAP algorithm, Mei Wang, CISCO
- prop-046: IPv4 countdown policy proposal, Toshiyuki Hosaka, JPNIC
- Resource management system WG update, Shin Yamasaki, JPNIC
- prop-037: Deprecation of email updates for APNIC Registry and whois data Terry Manderson, APNIC
- prop-047: eGLOP multicast address assignments Marshall Eubanks
- Resource transfer and certification Geoff Huston, APNIC

Chair / Co-Chair Election

- Nominee for Policy SIG Chair
 - Toshiyuki Hosaka, JPNIC
- Nominee for Co-Chair
 - Dong Yang, CNNIC
- Elected Chair : Toshiyuki Hosaka
- Elected Co-Chair : Dong Yang

Head count for Policy SIG

- 1st session 85 in room, 2nd session 80 in room
- 9 in jabber chat

Content of SIG

- 6 policy proposals
- 7 informational presentations

prop-042: Proposal to change IPv6 initial allocation criteria (Jordi Palet Martinez)

- The proposal
 - Proposed IPv6 policy:
 - Be an LIR;
 - Not an End Site;
 - Plan to make assignments
 - Plan to aggregate
- The proposal didn't reach consensus at the OPM, chair to refer the proposal to mailing list for further discussion

prop-043: Proposal to remove reference to IPv6 policy document as an "interim" policy document (Jordi Palet Martinez)

- The proposal
 - Proposed IPv6 policy
 - APNIC-089 : “Interim”
 - Proposed Modification : remove the statement
- The proposal didn’t reach consensus at the OPM

prop-044: Proposal to remove requirement to document need for multiple /48s assigned to a single end site (Jordi Palet Martinez)

- The proposal
 - Proposed IPv6 Policy
 - APNIC-089 : Required
 - Document nx / 48: Not Required
- The proposal didn't reach consensus at the OPM

prop-045: Proposal to modify "end site" definition and allow end sites to receive IPv6 allocations (Jordi Palet Martinez)

- The proposal
 - Proposed IPv6 Policy
 - APNIC-089 : Restricted to other organizations
 - Proposed modification : Broadened to include end users related to organization
- The proposal didn't reach consensus at the OPM

prop-046: IPv4 countdown policy proposal (Toshiyuki Hosaka)

- The proposal is splited into 4 points
 - 1 Global synchronization
 - 2 Some block to be left
 - 3 Keeping current practices until the last mement
 - 4 Separate discussions on recycle issue

- General feeling from the floor support the point 1,3,4. Chair to refer the proposal to mailing list for further discussion.

prop-037: Deprecation of email updates for APNIC Registry and whois data (Terry Manderson)

- The proposal
 - Secretariat to phase out email updates of registry and whois data in favour of more suitable and responsible methods providing APNIC has bridging mechanism provide migration capability
- The proposal didn't reach consensus at the OPM

Informational Presentations

- Draft SIG guidelines & open action items (Kenny Huang)
- Global policy update (Nurani Nimpuno)
- Large IPv4 address space usage trial for future IPv6 deployment - phase 2 (Fukushima Nao)
- Evaluation of GAP Algorithm (Mei Wong)
- Resource management system WG update (Shin Yamasaki)
- prop-047: eGLOP multicast address assignments (Marshall Eubanks)
- Resource transfer and certification (Geoff Huston)

Action Items

- pol-23-001: Chair to refer prop-042: Proposal to change IPv6 initial allocation criteria to mailing list for further discussion.
- pol-23-002: Chair to refer prop-046: IPv4 countdown policy proposal to mailing list for further discussion.
- pol-23-003: Chair to refer prop-037: Deprecation of email updates for APNIC Registry and whois data to mailing list for further discussion.
- pol-23-004: Marshall Eubanks to present prop-047: eGLOP multicast address assignments as a formal policy proposal at APNIC 24.

THANK YOU
