

[prop-054] Revision of APNIC-103-v001

NIR SIG

27 Feb, 2008

APNIC 25, Taipei, Taiwan

Proposal

- To revise the policy document [APNIC-103-v001](#), "Operational policies for National Internet Registries in the APNIC region".

Motivation

- Include ip6.arpa delegations
- Reflect current operational practice for automated and manual processes
- Provide flexibility for adoption of future technical operational advancements and changes in best practice

Changes

- Section 3.4
 - include ip6.arpa
 - Manual process
 - MyAPNIC
 - Automated Process
 - Specified at www.apnic.net/services/dns_guide.html
- Remove Appendix “Details of flat file view of a zone”
- Six month notice period of future change

Benefits

- Less prescriptive on technical implementation
 - More flexibility for future technology
 - Allows NIR flexibility of choice
- Includes ip6.arpa (not currently covered)
- Promotes continuous improvement in technology services

Implementation

- 2 weeks after EC endorsement
 - Update DNS Guide operational procedure on the APNIC website
 - Post revised operational policy

Summary

- Seeking consensus from the community to revise the policy document [APNIC-103-v001](#), "Operational policies for National Internet Registries in the APNIC region" as stated.

Thanks!
