# Policy Development Process

**APNIC**

# Policy SIG Charter

- Develop policies and procedures which relate to the management and use of Internet address resources by APNIC, NIRs, and ISPs within the Asia Pacific region
- Mailing lists
  - [sig-policy@apnic.net](mailto:sig-policy@apnic.net)
  - [sig-policy-chair@apnic.net](mailto:sig-policy-chair@apnic.net)

# Steps to Implementation

- Proposal submission
- Mailing list discussion before meeting
- Consensus at Policy SIG Meeting
- Consensus at the AMM
- Comment Period to confirm consensus
- EC endorsement
- Editorial Comment period
- Implementation

# Consensus Decision Making

- Consensus = “general agreement” taking into consideration comments on the mailing list and at the meeting
- Show of hands is a way of “broadly gauging opinion”
- Comments via Jabber are welcome
  - See the link on <http://conference.apnic.net/34/remote/chat/>
- Example definitions from Tao of IETF:
  - a very large majority of those who care must agree
  - strongly held objections must be debated until most people are satisfied that these objections are wrong

# Remember

- Minor Objections
  - some problems may occur for some members of the group
- Major Objections
  - major problems will occur for parts of the community
- Participants should “work together” to resolve
